HORTUS NURSERIES

SYOSSET, LONG ISLAND, N. Y.

Syosset, Long Island, N. Y.

Telephone: Oyster Bay 388

MRS. W. B. DEVEREUX

MRS. GEORGE A. CROCKER

We specialize in the better and unusual varieties. We are constantly adding to our collection and have many recent introductions in quantities too small to list.

In addition to the stock from our own nursery listed herein, we are glad to furnish seeds, bulbs, roses, shrubs and perennials: also supplies and equipment; in fact, anything for a garden. Customers placing such orders with us pay no more than if bought by them direct from our source of supply. Our effort is to provide the lowest priced stock consistent with quality and the advantage of our knowledge of growers and specialists is made available to our customers.

General List

SHRUBS, VINES, GROUNDCOVERS

ABELIA GRANDIFLORA: Medium	\$.75
Foliage lustrous, flowers white flushed pink. Blooms July till frost. Sometimes killed back to the ground in winter.	
AKEBIA QUINTATA: Pots, 3 yr.35
Vine with small dark green leaves which hang on late in the autumn. Better in half shade. Good groundcover.	
ARCTOSTAPHYLOS UVA-URSI: Bearberry. Small pot plants35
AZALEA MOLLIS: Chinese Azalea. 1-2 ft.	1.25
AZALEA SCHLIPPENBACHI: Royal Azalea. 1 ft.	1.50
Large flowers of light rose. We offer these plants for growing on as they have not yet bloomed.	
BERBERIS JULIANAE: Wintergreen Barberry. Large. 3 ft. up	2.00
Evergreen with shining leaves which keep a good green all winter. Probably the hardiest of the evergreen Barberries, suffering little damage in our nursery during the winter of 1933-34.	
BERBERIS VERRUCULOSA: Warty Barberry. Seedlings. 6x12 in.	1.00
We consider this the handsomest of the evergreen Barberries. It suffered severely during the winter 1933-34.	

CALYCANTHUS FLORIDUS: Sweetshrub. Large	1.00
The old-fashioned "Strawberry Bush" whose leaves and chocolate colored blossoms give a delicious scent when crushed.	
CARYOPTERIS INCANA: Bluebeard. 2 ft.	1.00
Not reliably hardy. Valuable for its delicate lavender-blue flowers in Aug.-Sept.	
CLEMATIS MONTANA RUBENS: Anemone Clematis. Pots	1.00
COTONEASTER BULLATA: Seedlings. Large. 4-5 ft.	1.25
Handsome foliage, red fruits.	
COTONEASTER HORIZONTALIS. Pots75
COTONEASTER SALLICIFOLIA: Seedlings. 6x12 in.60
Cotoneasters: In addition to those listed above we have some twelve other varieties in varying sizes and quantities.	
DAPHNE MEZEREUM: February Daphne. 12-18 in., \$1.25; 18-24 in.	1.75
Fragrant purple flowers in March-April. Valuable for its early blooming period. Semi-shade.	
FOTHERGILLA GARDENI: Dwarf Fothergilla. 1 ft.	1.25
Low bush with fragrant white flowers, May, and good fall coloring.	
HEDERA HELIX BALTICA: Pots20 to .40
A very hardy form of English Ivy. It is more inclined to creep than to climb and makes an excellent groundcover.	
ILEX AQUIFOLIUM: Seedlings. English Holly. Small, pots50
ILEX OPACA: American Holly. 4 ft.	3.50
Seedlings that have not yet proved whether they are berrybearing or not. Best in semi-shade. Makes a good accent in the woods. Spring delivery only. Moves best when Forsythia is in bloom.	
KOLKWITZIA AMABILIS: Beautybush. 5 ft.	2.00
Pale pink flowers, one of the loveliest of June shrubs.	
PACHYSANDRA TERMINALIS: Field grown, doz. \$1.00	hundred 10.00
PYRACANTHA COCCINEA LALANDI: Evergreen Firethorn. Pots25 to 2.00
This handsome shrub with white flowers and orange berries is difficult to transplant when large. We offer only small plants up to a few in 8 in. pots. None have bloomed.	
TAXUS MEDIA: 18 in.	1.50
A fine hybrid Yew which we bought as unnamed seedlings.	
TAXUS HICKSI: Hicks Yew. 18 in., 3-4 ft.	1.25 to 3.50
TSUGA CANADENSIS: Canada Hemlock. Unclipped. 4-5-6 ft.	1.00 to 1.75
TSUGA CAROLIANA: Carolina Hemlock. 1-2 ft.	2.00
RHODODENDRON MICRANTHUM: 2-3 ft.	3.00
Evergreen. Small dark green leaves and white flowers. May-June. Resembles Labrador Tea. Rare.	
VINCA MINOR ALBA: White Periwinkle or Myrtle. Pots15 to .25
Pure white flowers. Makes a good combination with the Common Blue Violet.	
Large Field Grown	
.50
